

HOW GSM-SYMBOLIC TEMPLATES WORK

SYMBOLIC TEMPLATE

{name1, Jennifer} 's dog has {n1, 8} puppies, {k1, 3} of which have spots. {name2, Brandon} 's dog has {n2, 12} puppies, {k2, 4} of which have spots. What percentage of all the puppies have spots?

RENDERED EXAMPLE

Jennifer 's dog has 8 puppies, 3 of which have spots. Brandon 's dog has 12 puppies, 4 of which have spots. What percentage of all the puppies have spots?

Total puppies: $8 + 12 = \text{«}8+12=20\text{»}$ 20

Puppies with spots: $3 + 4 = \text{«}3+4=7\text{»}$ 7

Percentage: $7 / 20 \times 100\% = 35\%$

35

SAME TEMPLATE, DIFFERENT NUMBERS
